**DISCOVER**

**by Lucy Amado**

I just can't fight it  
There's nothing like it  
The way I like it  
You fly me to the moon

Don't wanna hide it  
I've gotta ride it  
Now that I've tried it  
You got my head up in the clouds

When I'm looking for inspiration  
I close my eyes and see you  
Firing up my imagination  
It's an invitation for you

Why don't you discover me discovering you  
Come into those places of my mind  
Why don't you uncover me uncovering you  
You never know what you might find

I wanna praise it  
And not erase it  
'Cause when you pace it  
You make me touch the sky

Don't wanna shame it  
Not even tame it  
I wanna claim it  
'Cause you make me reach the stars

When I'm looking for inspiration  
I close my eyes and see you  
Firing up my imagination  
It's an invitation for you

Why don't you discover me discovering you  
Come into those places of my mind  
Why don't you uncover me uncovering you  
You never know what you might find

The way I draw your body with my mind

The way you give yourself to me  
The way we move across the universe  
That's the way we're meant to be

Why don't you discover me discovering you  
Come into those places of my mind  
Why don't you uncover me uncovering you  
You never know what you might find x 2

**New Mexico**  
**by Nate Straffon**

Have you ever seen  
Snow in the desert  
It falls like feathers  
And melts like a dream

I know you have  
Cause I was there too  
I only ask  
Cause I want the truth

New Mexico still gets cold  
But 9 months from now  
I'll have someone to hold  
The red sand reminds me  
Of our first snow fall  
And how you lied about knowing  
Anything at all  
I don't want your sympathy  
Too late for your honesty  
But if you're back in town  
Come see your son...  
The only truth you ever gave to me

Have you ever seen  
Lighting so violent  
It breaks through the silence  
And gives you a scream

I know you have  
Cause I was there too  
I only ask  
Cause I want the truth

New Mexico still gets cold  
But 9 months from now  
I'll have someone to hold  
The red sand reminds me

Of our first snow fall  
And how you lied about knowing  
Anything at all  
I don't want your sympathy  
Too late for your honesty  
But if you're back in town  
Come see your son...  
The only truth you ever gave to me

I watch the sun come up  
Over the ridge

I turn my head to the dust  
Blowing in the wind

New Mexico still gets cold  
But now I have  
someone to hold  
The blue sky reminds me  
Of nothing at all  
He took his first steps now he's  
standing tall  
Just do the best you can  
One day you'll be a man  
And if you're back in town  
Come see your son...  
The only truth you ever gave to me

## Micawber

By Philip Spiegel

I've had it, I've been here since you left me  
stranded

I've had it, I've been here since you  
abandond

me and I am ready to break out  
it's been so long since I left the house

I've had it, I've had it

you don't know what you're messing with  
if I don't drown, baby I..

you don't know what you're messing with  
cause if I don't drown, baby I will swim  
cause if I don't drown, baby I will swim

I've had it, enough of this headache  
I'm done with it, done with the things I  
need to change

I am ready to break out  
it's been so long since I left the house

I've had it, I've had it

you don't know what you're messing with  
if I don't drown, baby I..

you don't know what you're messing with  
cause if I don't drown, baby I will swim  
cause if I don't drown, baby I will swim

bones break, bones break and hearts do  
plains crash, plains crash and minds do  
ships sink, ships sink but I refuse too

bones break, bones break and hearts do  
plains crash, plains crash and minds do  
ships sink, ships sink but I refuse too

**I GOT A FUNNY FEELING**

**by Ariana McManus**

I ain't seen you for ages. Where've you been?  
Did I make a mistake letting you in?  
It's been months, yeah it's been quite some  
time  
since i was sure to call you mine.

I've got a funny feeling you don't love me no  
more.  
I may have stopped believing the day you let me  
fall to the floor.

I'll be ok. Yeah I'm ok. How are you?

We used to hug, used to hold hands. Oh we'd  
dance.  
Now I've forgotten your touch, I even miss your  
friends.  
I've had to get used to myself. Had to face me  
without your help.

Well, I've got a funny feeling you don't love me  
no more.  
You may have stopped believing the moment I  
walked out through your door.

You used to be mine, I used to be yours. We'll  
both be fine, that's for sure.

**GOT A FUNNY FEELING**

**by Arthur Fandl**

You came into my life like a big surprise  
So unexpectedly, you opened up my eyes  
And I got a funny, funny, feeling,  
you will stay for so long

you turned me upside down I don't know what  
to do  
And every day and night my mind is set on you  
But I got a funny funny feeling  
You will stay for so long

But I don't need you  
Please go away  
I can do without you  
That's all I say

Nobody needs you here , please go back to  
where you belong  
You want to change the world, well it will show  
you're wrong  
But I got a funny funny feeling  
You will stay for so long

**I'VE GOT A FUNNY FEELING**  
**by Johnny Kornfeld**

The highway is the selection  
All the others in the wrong direction  
The only one am I who is right  
should stop the drugs –  
start thinking by my side  
You my babe – you are so right  
But now its too late in the night  
I got a funny feeling, it might be wrong  
I got a funny feeling by my side  
I got a funny feeling , feeling allright  
About the not so funny fact that I am wrong and  
you are right  
I got a funny feeling – you are the smart  
You saw it coming right from the start  
I got a funny feeling , feeling all right  
I lost it all and I am wrong and you are right  
All the money ´s lost in the gamble  
Dephts all over the place  
Now Im locked down into prison  
Cause of mugging in the public space  
You my babe you are the one  
You knew it always now I am done ....  
I got a funny feeling, it might be wrong  
I got a funny feeling by my side  
I got a funny feeling , feeling allright

About the not so funny fact that I am wrong and  
you are right

I got a funny feeling – you are so smart

You saw it coming right from the start

I got a funny feeling , feeling allright

I couldn't help the fact ...

That I am wrong and you are right

**I GOT A FUNNY FEELING**  
**by Nate Straffon**

Verse:

I got a feeling  
That the world's turns way too fast  
That the girl who taught me to dance  
Left long ago

Yeah I got a feeling  
That bus stop has been moved  
That the city I once knew  
hit an all time low

Chorus:

But/yeah I got a feeling x2  
Someone near me might have died  
But I won't know if I close my eyes  
I might guess right maybe once or twice  
But I never am  
I got a feeling  
There's something I don't know  
It's so hard to feel this way  
I just can't let it go

Verse:

I got a feeling  
I was not born yesterday  
I'm no child, but still you say  
Look at your new tooth!

Yeah I got a feeling  
That the mystics never lie  
It just the way you tilt your eye  
To see the truth

Chorus:

But/yeah I got a feeling x2  
Someone near me might have died  
But I won't know if I close my eyes  
I might guess right maybe once or twice  
But I never am  
I got a feeling  
There's something I don't know

**Dancing All Alone**

**By JLP**

It's so hard to feel this way  
I just can't let it go

Verse

I got feeling  
I'm falling in love once again  
But this time it's different  
But I'm not sure why

Yeah I got a feeling  
For the first time in my life  
I can look calm into the night  
And shine no light
