

## FALLEN ANGEL

She's my fallen angel; She's like a fallen star  
She's my fallen angel She fell from heaven and into my arms

Day after day my life went on so empty and far away  
Suddenly she appeared one night  
and my night time turned to day  
She took away my troubles, She brightened up my life  
And when she wraps her arms around me we'll be  
lovin' all through the night

Now I believe in Angels cause she so easy to see  
And I believe in miracles  
Cause this one happened to me  
And when I look into the sky at night  
I know I'll never see  
What used to be the brightest star in the sky  
Cause that angel's on earth with me
